SUTTERBY ELECTRICAL

Your Commercial Partner

## Professional

### At Sutterby Electrical

- We are professionals and you can always expect professional conduct, from all team members
- We employ 12 fully licensed and experienced electricians
- Their technical skills include faultfinding, repairing, upgrading, testing, performing new installations, refurbishing and much more
- Our electricians take care and teach 12 apprentices ranging through all four year-levels
- We also have electricians with special skills, like data, solar or industrial applications
- As a business we are fully insured
- All our employees have working with children checks and Sapol clearances
- Our electricians listen to our clients and deliver the outcomes they promised, on time
- They are in ongoing communication with the client, to ensure the client stays informed on the job status
- We take care and get to know your site to ensure your electrical infrastructure is up to date with new technology and performing to best of its capability.
- We advise you on leading new technology to make your site operate more efficiently

## Safe

### At Sutterby Electrical

- We play it safe in more than one way
- Our insurances cover all aspects of our business for safety and peace of mind
- We have safety systems in place that are proven and externally accredited to AS4801 through Ebix Trade Monitor
- Our electricians value their own and their apprentice's safety as much as your safety when they work at your site
- Everyone performs their duties in a safe manner, employing systems like JSA's and SWMS and Take 5
- Our systems are designed to be easily applied and to maximise the existing workflow but allow for interruption when change is detected to ensure it can be dealt with before harm is done
- All teams are trained in reducing the Covid19 risk as they perform their work, and will follow any site-specific advice you give them
- We offer back to work assistance to all employees to shorten the impact of any injuries as part of our rehabilitation program

## Sustainable

### At Sutterby Electrical

- We encourage sustainability in and through our systems
- We promote sustainable technology when available
- We have policies in place that assist with protecting our environment
- Our procedures and processes ensure our policies are appropriately deployed
- We recycle fluoro tubes, cardboard, steel, copper, drink bottles, aluminum, and batteries
- We dispose of residual waste responsibly
- Sustainability is also reflected in a good work/life balance for our staff
- We also emphasize sustainability as we train our apprentices

# Capability Profile

SUTTERBY ELECTRICAL

Your Commercial Partner

## Inclusive

### At Sutterby Electrical

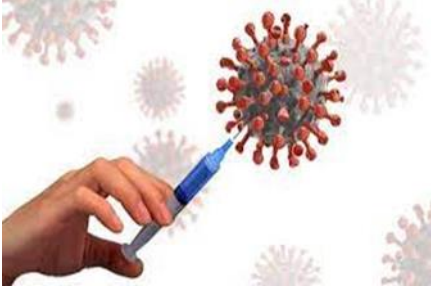

- We enjoy a diverse multicultural workforce, from the office to our field teams
- Our indigenous employment strategy offers pathways for indigenous apprentices in the electrical trade
- We encourage indigenous electricians to join our team
- We encourage procurement from indigenous owned supply companies
- We are playing an active part in our community by generously supporting organisations like the SALVOS and Light House Youth Projects
- We assist overseas immigrants to regain their electrical qualification while they work for us

# Capability Profile

SUTTERBY ELECTRICAL

Your Commercial Partner

## Proactive

### At Sutterby Electrical

- We ensure our clients electrical assets are working at peak performance
- We ensure our clients are kept up to date with new developments in technology
- We use preventive maintenance as a tool to identify any changes before they become a problem
- We plan and manage all works to ensure they are on time and done to the highest level of quality
- We use the same proactive approach on safety, reviewing our methods and improving on systems as circumstances change, ensuring a safe outcome for all involved
- Our ongoing training of apprentices also ensures a steady supply of quality tradespeople to our industry.
- We ensure the health of our community by promoting vaccination against Covid19

The cornerstones at Sutterby Electrical are SAFETY, SERVICE and QUALITY

**The SERVICE we provide and  
the QUALITY we stand for**

**is built on the  
solid foundation of SAFETY**

- Sutterby Electrical was founded in 1995 and we provide reliable electrical services to our clients for almost 3 decades
- For the last couple of years, we have been based in Regency Park in the centre of one of Adelaide's largest industrial and commercial areas.
- The company's main business is derived from preventive maintenance, breakdown services and project work.
- Our clients are many of our public schools, private schools, builders, commercial businesses, and industrial operators
- We are a South Australian success story, thanks to the quality people that call Sutterby Electrical home
